Developing a Developmental Plan and Fundraising Strategy

Development plans can serve as useful guides to create, assess and modify fundraising strategies of nonprofit organizations. This course will address the components of a development plan, including how to write a plan that furthers your organization’s mission and vision, creating goals that can serve to guide your organization’s development department, and strategies to implement the plan once completed. In addition, it will address various traditional and nontraditional fundraising strategies that organizations can incorporate in their development plans as well as their overall development strategies, including annual appeals, grant writing and collaborative efforts with for-profit companies. This course is most appropriate for executive directors and development staff. Board directors are also welcome.

Courses available in Farmington, East Granby, Fairfield, and Stratford

Motorcycling is one of the most exciting forms of transportation. You are totally responsible for every action taken — from timing each shift to keeping a keen eye out for other motorists. To understand these responsibilities, a CT Motorcycle Rider course is the place to start. Expert instruction is offered to both the beginner and the experienced rider.

Students must have the ability to ride a bicycle. A 10% insurance discount, and exemption from the CT Department of Motor Vehicles (DMV) on-cycle skills test, are bonuses of the program.

IT’S THE LAW!

All applicants for a new motorcycle license must successfully complete the Connecticut Motorcycle Rider Education Program.

Classes run April through October.
Contact us to receive your 2012 Motorcycle Rider schedule of dates/times and registration information, or visit tunxis.edu/motorcycle.

Basic Motorcycle Rider Course:
Designed for the individual with little or no riding experience. Includes six hours of classroom instruction and 12 hours of on-cycle training. Classes are held evenings and weekends. You must have a driver’s license or motorcycle permit and be physically able to operate a motorcycle. Motorcycles will be provided.

Fee: $200 nonrefundable

Experienced Rider Course:
Designed to improve rider skills in braking, evasive maneuvers, and turning, this course will provide you with “street strategies” to help you guard your safety. You will use your own motorcycle and will need a valid motorcycle license, registration, and insurance card.

Fee: $85 nonrefundable

Private Lessons:
Enjoy a personalized learning environment. Private and semi-private lessons comprise a maximum of 16-hours of both classroom and on-cycle instruction. Rider’s ability determines length of course.

Fee: $850 private
$425 semi-private (limit 2 people/class)

IMPORTANT! NO EXCEPTIONS.
Motorcycle course fees are nonrefundable. Select your class dates carefully to ensure your ability to attend ALL SESSIONS of your class, on time. Any absence or tardiness will require you to register for another course, pay again, and start over. If you know you will miss a session due to a vacation, wedding, work, etc., DO NOT enroll in that class; please choose another.

NEW! Digital Photography Basic Level Core Program

Our newly developed core program draws upon over 20 years of digital photography experience of our professional photographers. At the heart of the 3-course program is the belief that the beginning photographer in this age of digital photography must possess a solid knowledge of:

1. HOW TO USE the digital camera;
2. HOW TO APPLY that knowledge while taking pictures;
3. HOW TO CONTROL AND ENHANCE the digital photo in post-production in a professional manner.

Students who complete the entire program can count on being able to apply what they have learned in pursuing their photography ambitions. They also will be eligible to continue to take more advanced courses such as “Studio Lighting,” “Portraiture,” “Wedding Photography,” “Studio Product Photography,” “Food Photography,” “Lightroom 4,” “Photoshop Elements 10,” and many more courses designed to provide them with advanced professional photography training.

NOTE:
All advanced courses require the prerequisite of completing the (3) core program courses or the permission of the instructor based on portfolio review and interview.

Basic Level-1: Understanding Your SLR Digital Camera

Learn how to operate a SLR 35mm digital camera, and the creative potential of this medium. Whether you are just beginning or have been “shooting” for a while, you will benefit from this class. Learn how to take full advantage of your camera’s capabilities. Topics include: camera handling, use of different lenses, filters, depth-of-field, shutter speeds, flash photography, tripods, and composition. Join us in an informal atmosphere with emphasis on the individual needs of each student. Students will need a 35mm SLR digital camera with manual controls.

Sept. 6 –27 (TH); 6-9PM – 4 sessions
Fee: $145
Location: Tunxis@Bristol
Instructor: Eric Dreeke

Basic Level-2: Applied Creative Photography

In Basic Level-1 you learned how to use your digital camera. Now it’s time to practice what you’ve learned in this hands-on course. The first class begins with a review of the 35mm digital camera and discussion of the indoor and outdoor locations you will be photographing. Practical field training and demonstrations of depth-of-field, aperture and speed priority settings, ISO control, lens speeds, understanding telephoto vs. wide angle lens, image composition, understanding the “quality of light” and how it affects the mood of a picture, time exposures vs. motion capture, capturing textures, surface reflections, and more will all be emphasized and explored. An entire class session will be dedicated to reviewing student images and discussing the do’s and don’ts of producing a specific photographic look or mood and finding your style. Images from professional photographers will be used as visual examples during an extensive Q and A wrap-up. Prerequisite: Basic Level-1 or permission of the instructor based on portfolio review and interview.

Sept. 29 – Oct. 20 (SA); 10AM-1PM – 4 sessions
Fee: $145
Location: Tunxis@Bristol for first class only
Instructor: Eric Dreeke
SPECIAL INTEREST COURSES

Basic Level-3: Digital Image Control Using Photoshop Elements 10

A big misconception many digital photographers share is the belief that their high resolution digital images do not require further development once they are shot. All professional photographers know that even with basic sharpening, color and temperature corrections, and spotting (cloning), their photos have greater visual impact.

In Basic Level-3, the digital photographer is exposed to the power of Photoshop Elements 10 and digital image manipulation and correction. Taught from the point-of-view of the photographer, our “learn-by-doing” approach will cover many of the important adjustments and filter tools required to import, correct, enhance, sharpen, crop, and modify digital images. You will practice perspective control, cropping for impact, color correcting for mood, and become proficient in eliminating unwanted areas of their photograph. Working with a select group of your images depicting people, places, or things, you’ll move quickly through a series of pre-planned, step-by-step exercises that build upon one another in a logical and practical fashion. (NOTE: Course is taught on PC format but you may bring your Mac laptop if you wish.) Prerequisite: Basic Level-1 and Basic Level-2 or permission of the instructor based on portfolio review and interview.

Nov. 3, 10 & 17 (SA); 9AM -2 PM
Fee: $145
Location: Tunxis@Bristol
Instructor: David Archambault

Introduction to the Art of Black & White Photography: Darkroom

Express your creativity in the darkroom! If you love black and white photographs, this beginner-friendly course is for you. Learn how to better use your 35mm film camera for creating black and white negatives and printing black and white prints in the classic way. You will learn how to properly develop black and white 35mm film, develop darkroom skills and printing techniques, such as dodging & burning, use of filters vs. paper grades to control image contrast and tonality, and proper tray developing techniques for bringing out the most in your image. A 35mm SLR camera with manual controls is required. We’ll be using traditional black & white films and papers.

Sept. 7 – Nov. 9 (F); 6:30-9:30PM – 10 sessions
Fee: $229 (Approximate materials expenses: $100)
Room: 6-222
