**Prerequisites:**
Permission of Program Coordinator

**Corequisites:**
None

**Other Requirements:**
Students should be enrolled in their final semester of classes.

**Catalog Course Description:**
Intended for students in their final semester of study in the Computer Information Systems degree programs. This course is a graduation requirement that assists students in developing a portfolio demonstrating competency of Tunxis Community College General Education and Computer Information Systems Program abilities. This experience is initiated at the beginning of the computer information systems curriculum and expanded on each semester. The capstone portfolio experience is completed by the student and evaluated by an interdepartmental committee during the last semester prior to graduation. **Prerequisite:** Permission of Program Coordinator.

**Topical Outline:**
1. Introduction to the assessment portfolio
2. General Education abilities
3. Computer Information Systems Program Abilities
4. Organization of projects
5. Self-analysis of abilities
6. Posting and Presentation of portfolios
Upon successful completion of this course, the student will be able to do the following:

**COURSE:**
1. Develop a portfolio demonstrating competency in the general education and CIS program outcomes
2. Reflect, self-analyze, and communicate strengths, weaknesses, and areas of growth and accomplishment

**PROGRAM:** (Numbering reflects Program Outcomes as they appear in the college catalog)

**APPLICATIONS SOFTWARE**
1. Produce a simple database design and implement database applications using standard query language
2. Create, publish and maintain a web site

**PROGRAMMING**
3. Solve computer-related problems.
4. Apply the use of the Program Development Life Cycle
5. Practical knowledge of a high-level programming language such as Java, C++, or Visual Basic

**SYSTEMS ANALYSIS**
6. Analyze and design computer systems using the information system life cycle phases
7. Synthesize computer information systems knowledge and skills in solving basic information processing systems problems

**OPERATING SYSTEMS**
8. Understand the components of an operating system
9. Install, administer, and maintain an operating system

**NETWORKING**
10. Knowledge of industry standard networking and communication technology
11. Analyze and evaluate a networking scenario and recommend appropriate solutions

**GENERAL EDUCATION:** (Numbering reflects General Education Outcomes as they appear in the college catalog)

1. **Communication**
   1.1 Writing: Effectively communicates thoughts and ideas in writing
   1.2 Speech: Effectively communicates a verbal message
   1.3 Listening: Listens effectively and critically

2. **Critical Thinking**
   2.1 Selects and evaluates information
   2.2 Identifies and analyzes relationships
   2.3 Draws inferences and conclusions that are logical and supported by evidence
   2.4 Solves problems and makes decisions

3. **Information Literacy**
   3.1 Effectively uses, accesses, and evaluates information
   3.2 Understands the issues surrounding access to and use of information

4. **Technological Literacy**
   4.1 Uses software applications effectively and purposefully
   4.2 Assesses the potentials and limitations of technology
5. **World Cultures and Perspectives**
   - 5.1 Analyzes and evaluates the social, cultural, and political forces that shape the individual and society
   - 5.2 Examines and assesses the relationship between historical events and the contemporary world

6. **Aesthetic Engagement and Creative Expression**
   - 6.1 Evaluates and applies creative processes
   - 6.2 Identifies and evaluates the form, structure, and aesthetic qualities of artistic and literary works

7. **Quantitative and Scientific Reasoning**
   **Quantitative Reasoning**
   - 7.1 Demonstrate knowledge and comprehension of quantitative skills
   - 7.2 Applies knowledge to analysis of specific problems
   - 7.3 Analyzes and synthesizes quantitative information to solve problems
   - 7.4 Evaluates problem-solving processes

   **Scientific Reasoning**
   - 7.5 Applies empirical evidence and scientific argument and distinguishes between cause and effect

8. **Values, Ethics, and Citizenship**
   **Ethics:**
   - 8.1 Recognizes ethical issues, values, and standards, and describes the elements of ethical judgment
   - 8.2 Makes ethical decisions and formulates and evaluates arguments to justify such decisions
   - 8.3 Demonstrates ethical behavior and social responsibility

   **Citizenship**
   - 8.4 Demonstrates civic responsibility by engaging in community or civic service

9. **Interpersonal and Team Skills**
   - 9.1 Works in groups to define problems, elicits and respects the contributions of others, synthesizes diverse opinions, and seeks consensus

---

**Evaluation:**

List how the above outcomes will be assessed.

Assessment will be based on the following criteria:

1. Assessment Portfolio Project – this project will allow students to select and reflect on work that meets each of the General Education and CIS Program Abilities

---

**Instructional Resources:**

List library (e.g. books, journals, online resources), technological (e.g. Smartboard, software), and other resources (e.g. equipment, supplies, facilities) required and desired to teach this course.

Required: ePortfolio accounts for all CIS students

Desired:

---

**Textbook(s)**

None
