## Ability-Based Education (ABE)

Statement:

At Tunxis Community College students are assessed on the knowledge and skills they have learned. The faculty identified the General Education Abilities critical to students’ success in their professional and personal lives. In every class, students are assessed on course abilities, sometimes program abilities, and, in most classes, at least one General Education Ability. Students will receive an evaluation of the degree to which they have demonstrated or not demonstrated that General Education Ability.

## Catalog Course Description:

Intensive reading and writing review before retaking the placement exam for students who have had previous reading and writing instruction, but need to review that instruction before enrolling in a college reading and writing course. Students will learn and practice basic reading and writing skills. This course is intended as a review course only for students who have placed at the top of Integrated Reading & Writing I placement range and who may need a review in order to place into Integrated Reading and Writing II. This course does not satisfy an English requirement or an elective in any degree program; neither do its credits count toward graduation.
